NOTES TO FINANCIAL STATEMENTS: Interim financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the periods. The December 31, 2000, balance sheet has been derived from the audited financial statements. These interim financial statements conform with the requirements for interim financial statements and consequently do not include all the disclosures normally required by generally accepted accounting principles.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations in the period ending September 30, 2001, or for over the past ten years. The Company intends to continue to seek out the acquisition of assets, property or business that may be beneficial to the Company and its stockholders.

The Company's only foreseeable cash requirements during the next 12 months will relate to maintaining the Company in good standing in the State of Nevada, keeping its reports "current" with the Securities and Exchange Commission or the payment of expenses associated with reviewing or investigating any potential business venture. Management does not anticipate that the Company will have to

raise additional funds during the next 12 months, however, if additional moneys are needed, they may be advanced by management or principal stockholders as loans to the Company. Because the Company has not identified any such venture as of the date of this Report, it is impossible to predict the amount of any such loan. However, any such loan will not exceed \$25,000 and will be on terms no less favorable to the Company than would be available from a commercial lender in an arm's length transaction. As of the date of this Report, the Company has not begun seeking any acquisition.

Results of Operations.

The Company has had no operations during the quarterly period ended September 30, 2001, or for over the past ten years. During the quarterly period covered by this Report, the Company received no revenue and incurred expenses of \$229, stemming from general and administrative expenses.

Liquidity

At September 30, 2001, the Company had total current assets of \$0 and total liabilities of \$7,352.
